Instructions for students

Line the class up in two lines facing each other to form pairs. Ask the first question. Once each pair has discussed it, get one line to move one person to their right. The person at the end runs around to the other end of the line. Then you ask the next question and repeat the process until all the questions have been asked.

Sharna Neuroscientist

Question 1

What do you think is interesting about Sharna's career?

Question 6

What sort of problems do you think Sharna might have doing this job in a rural or remote location?

Question 2

What skills does Sharna have that you also have, and does she have any skills you don't have that you would like to have?

Question 7

How important are mathematics and technology in Sharna's job? Can you think of some examples?

Question 3

Why do you think it's important to find a career that suits your skills and personality?

Question 8

What tools or technology do you think Sharna needs to do her job?

Question 4

How are your interests and hobbies similar or different to Sharna's career?

Question 9

How do you think AI might change Sharna's job in the future? Can you think of some examples?

Question 5

How do you think Sharna's career contributes to society?

Question 10

What do you think would be the biggest challenge pursuing a career as a neuroscientist?
